

5 - 300 μ l

Pipette Tips, 5 - 300 μ l

Bulk/racked, standard/ULR, sterile/non-sterile

Pipette tips, bulk, 5-300 μ l, non-sterile, PP, IVD, colorless

Minimum order quantity / quantity interval: 1000 pieces (1 bag with 1000 pcs.)

Cat. No.: 732010

22,85 EUR

Recommended sales price without VAT (PL 2015)
per 1000 on orders of 1000.

Product description

The thin-walled tip is suitable **for reverse pipetting** and plate washing. It is 53 mm long and can also be used for pipettes with yellow color code. It is particularly suited **for working with multichannel pipettes**.

- Graduation at 50 and 100 μ l for quick volume check.
- The racked tips are colorless and placed into a green-colored tip tray.

The surfaces of the **Ultra Low Retention tips (ULR)** are produced through a special physicochemical process. The homogeneous, defect-free surface thus produced has extremely low surface tension - over 50% less than PTFE. This significantly reduces sample loss and provides substantially higher reproducibility when working with critical media.

- Ideal for biological samples that contain detergents such as Triton® X-100, SDS, Tween etc.
- No additives that can be leached out! No siliconization of the surface!
- High chemical resistance. Ideal for working with solvents.
- The tips can be autoclaved at 121 °C (2 bar) without damaging the material properties.

Specification

description		bulk, in bags
Type		standard
description		non-sterile
number of tips		1000
