

Dispensers

Bottletop dispensers, without bottle

- a positive displacement plunger with a PFA seal minimizes the crystallization of liquids and thus the clogging of the plunger
- high-quality materials (ETFE, PFA, FEP, borosilicate glass, platinum-iridium) ensure high chemical resistance against most acids, solvents and bases
- scale easily readable
- quick, easy and precise volume adjustment
- no drops after tube has been capped
- completely autoclavable at 121 °C
- conformity certified acc. to DIN 12 600
- tolerances acc. to DIN EN ISO 8655-5
- individual serial number on each dispenser
- detailed instruction manual and quality certificate attached
- supplied with 3 adapters, 1 intake tube and 1 mounting tool
