

SHORTWAVE

K-50

AUTOMATIC TUNING SHORTWAVE, LOW POWER

- Capacitive method of treatment
- Automatic tuning function
- One touch intensity level setting
- All solid-state electronics
- Digital timer
- Touch control operation panel

SPECIFICATIONS:

Frequency: 27.12 MHz (Crystal Oscillation)

Output: 50 W max. — four setting (H, M, M-1, L-2).

Tuning: Automatic tuning

Timer: Digital timer, accuracy $\pm 1\%$

5, 10, 20, 30 min. Indicator counts down and shows remaining time in 1 min. units.

Power Consumption: 100 W ± 20 W

Electrode System: Non-arm pad system (condenser-field)

Size & Weight: 360 × 190 × 320 mm, 9 kgs.
