

Vacuubrand vacuum controller CVC 2¹¹ for diaphragm pump

feature	CE compliant
limit	10-40 °C temperature
L x W x H	241 mm x 91 mm x 132 mm
weight	1.5 kg

Fully electronic vacuum gauge and controller (two set point control) for absolute pressure determination with built-in piezoresistive pressure transducer (975 - 1 Torr / 1300 - 1mbar) and continuous variable independent setting of two switch points between 106 and 1 mbar (~795-1Torr). Combined analogue and digital read out provided quick and precise information.

The CVC 2¹¹ is also part of the chemistry vacuum system PC 500 - PC 600.
