Simulaids OPA and ECG Upgrade Kit for CPR Kyle Child Manikin

The upgrade package includes a head designed for insertion of oropharyngeal airways, an overlay that features four-lead monitoring capabilities and Simulaids' popular ECG Interactive Rhythm Generator. The upgrade is designed to take less than five minutes and does not require tools. Simply replace the original Kyle head and overlay. This kit will convert a basic life support manikin into one that accepts an OPA and monitors ECG through limb leads. Sh. wt. 5.50 lbs. (2.49 kg).
