

## Nursing Anne

Designed for simulation and practice of a complete range of patient assessment and care procedures. Including sounds auscultation, vocal sounds and an updated blood pressure arm, when used in conjunction with the new VitalSim™ Vital Signs Manikin Simulator. The addition of modules for breast examination, post surgical mastectomy care and fundus massage skills makes this full body, adult female manikin the complete care doll. Full body, anatomically accurate manikin with realistic articulation. The head with anatomical landmarks, trachea and oesophagus, along with simulated lungs and stomach allow the practice of many procedures:

- Irrigation of the eye and ear (simulated)
- Application / instillation of medications in the eye, ear and nose, including nasal packing
- Mouth and denture care procedures
- Insertion and suctioning of oropharyngeal and nasopharyngeal airways
- Insertion, securing and care of endotracheal tubes
- Tracheotomy care and tracheal suctioning
- Various oxygen delivery procedure
- NG tube insertion, care, medication administration and removal
- Gastric lavage and gavage
- Nasoenteric and oesophageal tube insertion, care and removal
- Manually generated carotid pulse
- Subclavian IV, various ostomy and chest tube openings for site care and maintenance

Includes: Adult, full body female manikin, hospital gown, manikin lubricant, assembly tool kit and directions for use.

Please note that the VitalSim™ unit must be ordered separately.  
108x53x48 cm; 38 kg
