

Water Rescue Manikin

This manikin allow Coast Guards, Lifeguard Trainers and Emergency Personnel to train water rescue and retrieval. When filled with water the manikins will sink to the bottom.

CPR Water Rescue Manikin (adult), 165 cm

This manikin of an adult allows Coast Guards, Lifeguard Trainers and Emergency Personnel to teach water rescue and retrieval as well as CPR. The manikin has articulated joints and is made of durable plastic and rust resistant steel. When filled with water the manikin will submerge to the neck, if an additional 5 kg (a brick will do) is added, it will sink completely.

Rescue Manikins

These manikins allow training in the extrication of a person from a pole top situation, confined spaces, collapsed buildings, smoky rooms and also ladder carry-down protocols. A perfect aid in situations too hazardous or uncomfortable for human volunteers and especially suitable for Military, Fire Departments, Police Departments, Safety Teams and Emergency Personnel. The manikins feature articulated joints and realistic weight distribution. They are made of durable plastic with strong plastic-coated cables. These manikins are not fire resistant and are not for water rescue.
