

## COMBINED THERMOMETER

Dual range thermometer provides simultaneous reading of scale both in Celsius as well as Fahrenheit. Scale graduated 0 to 110  $\times 1/1^\circ\text{C}$  and 0 to 220  $\times 2/1^\circ\text{F}$ .

2013880 Combined Thermometer

## THERMOMETER, CLINICAL

Sensitive and accurate thermometer for measuring body temperatures. Easy read double scale graduated 94 to 108°F or 35 to 43°C. In plastic case with cap.

2013920/1 Thermometer, Clinical, Ordinary 1

2013920/2 Thermometer, Clinical, capillary and scale enclosed in Glass Capsule 2

2013920/3 Thermometer Clinical, with Digital LCD readout, having least count of  $0.1^\circ\text{C}/^\circ\text{F}$ , battery operated 3

## THERMOMETER, POCKET

Mercury or red spirit filled, white backed with black printed scale for easy reading, in plastic case with pocket clip. Thermometer cap may be inserted into the thermometer for handling it or to extend reach. Graduated -10 to 110  $\times 1^\circ\text{C}$ . :Approx length 155mm.

2013960 Thermometer, Pocket

## THERMOMETER STAND

Sheet metal stand of aluminium bent and formed in Z-shape, supports three rows of six thermometer each (total eighteen thermometers) safely and conveniently. The base of the stand specially cushioned with foam to protect the thermometer bulbs.

2014040 Thermometer Stand

## STOP CLOCK (SMITH TYPE)

Durable, easy to use, spring-wound stop-clock useful for student labs and classroom demonstration. Large dial about 100mm in diameter, with big pointer hands provides easy reading even from a distance. Bigger main dial with larger sweep hand reading 0-60  $\times 1$  second with smaller dial reading 0-60  $\times 1$  minute. Includes start/stop lever on left side and zero reset lever on its right side. Housed in a durable light-weight casing. Runs for about 30 hours on one complete winding.

2014160/1 Metal Casing with scratch-resistant epoxy coating  
2014160/2 Unbreakable plastic casing

## STOP WATCH, DIGITAL

A digital stop watch, with LCD display. Timed with Quartz movement to an accuracy of 0.01s. Includes lap / cumulative timing functions, 12/24 hour clock in hours-minutes-seconds with day/date display and alarm function.

2014080 Stop Watch, Digital

## STOP WATCH

Antimagnetic, spring wound, jeweled movement in a robust plated steel case, corrosion resistant, dust and damp proof. With thumb press knob at the top for start, stop and reset respectively and a ring for suspension through cord.

2014120/1 0-60 seconds main dial graduated to  $1/5$  second with 0-60 minutes smaller dial graduated every 1 minute  
2014120/2 0-30 seconds main dial graduated to  $1/10$  second with 0-30 minutes smaller dial graduated every  $1/2$  minute.

## HAND TALLY COUNTER

Capable to count any event up to the 9999 times with the help of push button. It can be reset by just rotating the knob fitted in side of the counter.
