

Intellect® Legend. Exceptional clinical performance, durability, and ease of use.

Features include:

- Waveforms — Interferential, Premodulated, Russian and High-volt
- Ultrasound — 1 and 3.3MHz frequencies; 10%, 20%, 50% and Continuous Duty Cycle selection; and Head Warming
- Bright back-lit LCD and multi-segment LEDs
- Waterproof tactile-touch controls
- Simple 1-2-Go operational software

Ultrasound and Combo units come standard with 5cm² soundhead.

- 2940** Two-Channel Stimulator
- 2942** 2-Channel Combo Therapy Machine
- 9229-40** Four-Channel Stimulator
- 2943** 4-Channel Combo Therapy Machine
- 2941** Ultrasound

Bright back-lit LCD and multi-segment LEDs

Accessories

Optional Ultrasound Heads

- 2941-L** 10cm²
- 2941-S** 2cm²
- 9221-41-05** 5cm²

Replacement Lead Wires

- 9261-66** Channels 1 & 2
- 9261-67** Channels 3 & 4

Sonicator® 740 and 740X Ultrasound. This dual frequency ultrasound device features a large LDC display and one touch parameter entry. Includes a dual frequency (1/3MHz) 5cm² applicator. The 740 offers 4 pulsed modes - 10, 20, 50 and 100%. The 740x has all the features of the 740, but additionally includes a 10cm² and a 1cm² applicator. Each applicator includes our patented direct crystal to patient contact. The universal applicator cable allows therapist to quickly interchange applicators by disconnecting at both ends of the cable. Two year warranty on the unit and a 1 year warranty on the applicators and cables.

- 5614-20** 740 Ultrasound with 5 cm Soundhead
- 5614-30** 740X with 3 Applicators
- 5614-21** 1 cm Soundhead
- 5614-23** 10 cm Soundhead
- 5614-24** Optional Battery Pack

Sonicator 740 and 740x Specifications

Modes	Continuous, Pulsed 10, 20 and 50% Duty cycle
Pulse Repetition Rate	100 Hz ±20% (Pulse Mode)
Pulse Duration	1, 2 or 5 msec ±20%
Maximum Treatment Time	30 minutes
Input	120V, 50 / 60 Hz, 0.5 amperes maximum
Battery	Rechargeable Smart Lithium Ion Battery Pack rated at 10.8V and 4.8Ah

NEW Sys* Stim® 240 Stimulator with Light Therapy.

Features nine waveforms that can be combined with on-off programs for neuromuscular education as well as frequency and amplitude modulation programs for optimal pain management. New touch-sensitive technology has been used to simplify the start of treatment. The patented M-Wheel™ allows easy navigation through all of the menus.

An optional light therapy accessory is also available, and it provides therapeutic infrared light for temporary increase in blood circulation; temporary relief of minor muscle and joint aches, pains and stiffness; temporary relaxation of muscles; and temporary relief of minor pain and stiffness associated with arthritis. All of the controls for light therapy are already installed on the Sys*Stim 240. The clinician only needs to purchase the accessory package and plug in the applicator to activate the light therapy capabilities.

Light therapy package includes:

- Laser applicator (785/470 nm, 80 mW)
- Cluster applicator (850/550 nm, 500 mW)
- Right and left applicator holders with mounting hardware
- One pair of protective eyewear

- 5676-96** Sys* Stim 240
- 5678-56** Light Therapy Package
