

2 - 200 µl

**Pipette Tips, 2 - 200 µl**

Bulk/racked, standard/ULR, sterile/non-sterile

**Pipette tips, racked, TipRack, 2-200µl, BIO-CERT®, PP, IVD**

Minimum order quantity / quantity interval: VE = 960 pieces (10 racks à 96 pieces)

**Cat. No.: 732128**

**65,90 EUR**

Recommended sales price without VAT (PL 2015)  
per 1 on orders of 1.

**Product description**

**A tested and proven thinwalled tip.** Lighter in weight, 50 mm long and can be used for virtually all pipettes with yellow color code.

- Graduation at 20 µl and 100 µl for a quick volume check.
- Bulk tips are yellow colored.
- The racked tips are colorless and placed into a yellow-colored tip tray.

The surfaces of the **Ultra Low Retention tips (ULR)** are produced through a special physicochemical process. The homogeneous, defect-free surface thus produced has extremely low surface tension - over 50% less than PTFE. This significantly reduces sample loss and provides substantially higher reproducibility when working with critical media.

- Ideal for biological samples that contain detergents such as Triton® X-100, SDS, Tween etc.
- No additives that can be leached out! No siliconization of the surface!
- High chemical resistance. Ideal for working with solvents.
- The tips can be autoclaved at 121 °C (2 bar) without damaging the material properties.

**Specification**

description		TipRack
Type		standard
description		sterile
number of tips		960
