ALUMINUM TOP

VELP Scientifica offers a wide range of heating magnetic stirrers with aluminum top. Aluminum top ensures excellent conductivity and temperature homogeneity and good resistance to chemicals. As always VELP Scientifica ensures the most advanced safety standards.

Optimum Heat Transfer, Premium Homogeneity
Aluminum alloy top plate ensures outstanding temperature homogeneity and optimum heat transfer across the entire surface.

Intuitive Front Panel
With temperature and speed selector; the inclination of the front panel has been carefully studied to facilitate use.

ARE

The ARE is widely used in research and development, industrial and university laboratories worldwide. It has an aluminum alloy heating plate coated with a protective coating in order to ensure uniform heat distribution and excellent resistance to chemicals. The ARE is designed to last and equipped to ensure maximum protection against leakages with the elevated front panel and dedicated run-off grove. The control panel is separated from the hot plate, this feature increases the safety rating during use and the durability of the instrument. The inclination of the front panel has been carefully studied to facilitate use.

Electronic speed regulation: up to 1500 rpm
Stirring volume (H₂O): up to 15 L
Temperature: up to 370 °C
SpeedServo™: constant speed even when the viscosity changes

AM4 AND AM4X

The AM4 is a multiple-position heating magnetic stirrer with four separately controlled stirring plates. The aluminum alloy heating plates are coated with a special protective layer and ensure uniform heat distribution and excellent resistance to chemicals.

The AM4X is designed to be combined with VTF Vertex digital thermoregulator, with integrated timer, for a precise temperature control of the liquid up to 300 °C (± 0.5 °C).

Electronic speed regulation: up to 1500 rpm
Stirring volume (H₂O): up to 15 L per position
Temperature: up to 370 °C
Distance between stirring position centres: 186 mm
SpeedServo™: constant speed even when the viscosity changes
