

# Datalogger, temperature with 4 external channels and display

Item# CZ-92600-33

## Memory stores up to 48,000 readings

Portable datacollector allows data to be transported to PC

Advanced software features 21 CFR11 compliance

These dataloggers are designed to monitor long-term environmental conditions in a wide variety of industries including warehouses, HVAC industrial, pharmaceutical and electronic applications. Long lasting lithium battery and large memory capacity allows monitoring for up to 5 years. All loggers have a display (except 92600-30) and immediately provide a quick overview of the current reading, last value saved, maximum and minimum values and the number of times a limit has been exceeded. Program the datalogger with the Windows® compatible software (sold separately). The user-friendly basic software has all the functions needed to monitor, analyze, save and print data. The advance software ha all the functions of the basic software plus has additional displays such as bar displ

Specifications	
Product Type	Temperature Dataloggers
Temp accuracy	±1.2°F (±0.7°C)
Display	Two 3-digit LCD
Interface	RS-232 or through data collector
Memory capacity	48,000 data points
No. of channels	4 external temperature (order probes separately)
Brand	Testo
Power	Lithium battery
Printer	Sold separately
Resolution	0.1
Dimensions	4 in L x 2.5 in W x 1.25 in D
