Powerful drive

Easily interchangeable heads

Easy to clean working surface made of stainless steel

2+1 years after registering at www.ika.com/register

Year warranty*

Continuously operating universal microfine grinder for impact and cutting grinding. Two different grinding heads can be attached to the drive and are easily interchangeable.

MF 10 basic | Accessories

1 MF 10.1 Cutting-grinding head

For crushing fibrous substances such as paper and vegetation, but also for plastics and material with a low volume weight. Before being discharged, the ground material passes through a sieve. This sieve is interchangeable and available in different hole sizes (not incl. with delivery). The ground material can then be collected using an NS 29 standard ground vessel.

Ident. No.
2870900

2 MF 10.2 Impact grinding head

For crushing brittle, hard materials such as minerals, building materials up to Mohs hardness 6. Before being discharged, the ground material passes through a sieve. This sieve is interchangeable and available in different hole sizes (not incl. with delivery). The ground material can then be collected using an NS 29 standard ground vessel.

Ident. No.
2871000

MF Sieve

Interchangeable sieves for insertion into the grinding heads ensure maximum particle size filtering.
