

NMR

Benchtop Spectrometer

NMR right where you need it most!

Buck Scientific is now offering an Academic Benchtop NMR Spectrometer for under \$50K. The NMReady™ is the quick easy to use Nuclear Magnetic Resonance Spectrometer.

About the size of a shoe box, and simple to use, it is taking what is possible in the classroom to the next level!

At 60Mhz the NMReady™ is a powerful spectrometer which can produce fast accurate results for a wide variety of applications in many different industries including:

Petroleum: Benzene and oxygenate quantification

Petrochemical: Polymer QA/QC

Alternative Energy: Biodiesel characterization

Agriculture & food science: adulteration of olive oil, fat & moisture content

Pharmaceutical: quantification of composite antibiotics, reaction monitoring

Environmental: Remediation & BTEX analysis
