

PYREX Student Grade Volumetric Flask with Polyethylene Snap-Cap

These PYREX® student grade economy flasks are designed for use in schools that do not require the precision accuracy of our Class A capacity flasks. The shape, body and wall are the same as regular flasks but display the large triangular marking spot and designation "Student Flask" unique to the student line. Capacity tolerances are twice those specified for Class A volumetric ware. The graduation line is sharp and permanent; large white block letters make inscriptions easy to read. Heavy duty necks are tooled for No. 25 polyethylene snap-caps. For replacement snap-caps see No. 7666.
