QUIETLIFE[™] 5 OXYGEN CONCENTRATOR

AIRSEP[®]

The Premier Concentrator with the Exceptional Sound Advantage

AirSep's QuietLife™ 5 Oxygen Concentrator silences the two most common concentrator complaints: sound and power consumption.

Oxygen patients, their loved ones, and other caregivers can appreciate the unsurpassed quiet that only this 5 LPM concentrator can bring to a room. One hardly notices it's even on: whether at bedtime, when relaxing to read without interruption, during tender family moments, or even when babysitting in a child's nursery. In fact, this concentrator sounds as silent as a sleeping baby.

Low Sound Levels

QuietLife 5 lets you expand your respiratory business with a noise-free concentrator that appeals to referral sources and their sound-sensitive patients. Patients enjoy silent, energy-efficient technology. Home care providers appreciate AirSep's proven reliability and long-lasting performance.

An ideal alternative to expensive liquid oxygen.

Low Power Consumption

This silent concentrator is also ideal for the energy-conscious patient or health care institution, operating at 30 percent less power than the average concentrator. With rising energy costs throughout the world, this AirSep concentrator becomes even more of an asset with long-term, continuous use.

Why not market QuietLife 5 – and give yourself a sound advantage?

All QuietLife 5 units include AirSep's locking flow feature and system over-draw protection.

Unit shown with optional oxygen monitor.

SPECIFICATIONS

SOUND LEVEL: <40 dBA
(Measured at 39.4 in. (1 m) from the front of the concentrator and 15.7 in. (40 cm) above the floor)

PERFORMANCE: 1-3 LPM 95% ±3%
LPM 4 LPM 92% ±3%
CONCENTRATION* 5 LPM 90% ±3%

POWER REQUIREMENTS: 120 VAC, 60 Hz; 220-240 VAC, 50 Hz; 220-240 VAC, 60 HZ

POWER CONSUMPTION: 285 W

DIMENSIONS: 16.5 in. W x 14.5 in. D x 27.5 in. H
41.9 cm W x 36.8 cm D x 69.9 cm H

WEIGHT: 57 lb (26 kg)

ALARMS: High Temperature
Power Failure
High or Low Pressure
Battery Test
Low Oxygen Concentration
(with optional Oxygen Monitor)

WARRANTY: 3-year on parts

*Based on an atmospheric pressure of 14.7 psia (101 kPa) at 70°F (21°C).

INTERNATIONAL APPROVALS
