BRIEF INTRODUCTION OF PRODUCT

Series of Microcomputer Multifunctional Massage Folding Chairs, cushion, which connect knocking, kneading, rolling, magnetic therapy and pinching massage together is the result of the Rongtai enterprise unceasing developing and hard working for years. Adopting the massage theory of the Chinese medicine, linking German sports science and the modern high scientific technology together, the enterprise produced such kind of excellent health-keeping product. Not only designed ergonomically, matching skeleton distribution and muscle acupoint structure of the human body, but also joining the even and complex force beating in powerful electromagnetic field and the Chinese medicine manipulations of kneading and massage, controlled by microcomputer the products can knead and massage the neck and the shoulder of the human body in both positive and negative directions at the acupoint of Fengchi, Tianzhu, Jianjing, and so on. You can enjoy the high quality health-keeping efficiency after the repeat rolling and beating in alternating ways at your back, waist and buttocks' acupoint such as Xinshu, Ganshu, Pishu, Shenshu, Cishu, etc. after attending to numerous affairs everyday.

That the perfect combination of the kneading, pinching, beating and rolling massage in the powerful electromagnetic field will not only make you vigorous, effectively promote the soft tissue blood circulation, clear and activate the channels and collaterals, regulate the function of your nerve system and remove the muscle fatigue; but also relax the muscle of the back and waist, recover the active degree of spine, improve the extravasate remains to be absorbed, loosen the mucus, and promote the waist and back muscle function, especially it has the remarkable auxiliary treatment effect to the chronic strain of lumbar muscles and it can strengthen the immunity function of the organism. It is not only indispensable and practical household healthy keeping product, but also a best present for friends and relatives.
