

New Sugar Coating Machine Pill Coater Machine Tablet Coating Machine BY-300

BY sugar coating machine is used to sugar coating the tablets and pills for pharmaceutical, food industries, medicine, health products, feed, chemicals, plastics, ceramics and other industries. It is also used for rolling and heating beans and edible nuts or seeds. The tilted angle of round pot is adjustable, the heater such as gas heater or electrical heater can be placed directly under the pot. A separated blower with electrical heater is provided. The pipe of the blower stretches into the pot for heating or cooling. The thermal capacity can be adjusted.

Features

1. Able to be matched with frequency controller.
2. Able to be matched with dust-removal system.
3. It can be made to totally-enclosed type, served with airbrush system, and meets the GMP requirements.

Specification

Dia. of the sugar coating pot: 300mm

Production capacity :1-2kg/time

Voltage: 220V/110V(it needs another 7 working days to customize)

Inner heating power: 900W

Host speed:46r / min

Main motor power:0.55kw

Blower power:60W

External heating power: 500W

Weight:65kg

Dimension:485mm×585mm×766mm
