An ideal tool for holding Warner In-line Solution Heaters close to the chamber. Machined from a solid Delrin block, these sturdy holders can be secured to your microscope stage using gaffer or duct tape.

- The SHH-1 works with both our SH-27B and SF-28 Solution Heaters.
- The SHH-2 mounts our SC-20 In-line Solution Heater/Cooler.
- The SHH-3 is used for the SHM-6, SHM-8, and SHM-828 Multiline In-line Heaters.
- The SHH-4 works with our FR-50 and FR-55S flow valves.

Order #	Model	Product
W3 64-1555	SHH-1	Holder for Solution Heaters Models SH-27B & SF-28
W3 64-1556	SHH-2	Holder for Solution Heaters Model SC-20
