

Skin Suture Trainer

A great low cost way to practice surgical opening and closing techniques.

Features:

- Economical reversible pad
- The material has been designed to make complex incisions such as “flap and dog turn” suturing more realistic
- A sub-dermal layer is present so that it is possible to make secure intra-dermal sutures
- Base has suction feet to make it slip free use

11x14 cm

Episiotomy Suturing Simulator, Set of 3

This simulator provides a realistic way for students to learn surgical techniques without the constraint of time and concern for safety, which are factors with a live patient. In addition to being portable, the lifelike texture allows the learner to develop a “feel” for instrument handling, tension on suture and the advantages of one method of tying knots over another. The set includes midline, left mediolateral and right mediolateral episiotomies and is supplied in a storage case. Needle holder, suture material and tweezers are not included in scope of delivery.

20x15x7 cm; 1.5 kg

Suture Practice Arm

This arm is made of a soft vinyl skin over foam allowing hundreds of suture practice sessions. The arm comes with 3 wounds, as well as several cuts which can be placed all over the arm, hand and fingers and sutured several times. The soft and pliable material guarantees the sutures will not pull out when tightened. Delivered with a starter suturing kit. Like W44230.

Surgery Trainer

The Surgery Trainer allows open surgery practice and offers an advanced skills capability for cut and suture practice. The single sided skin pad and a piece of abdominal bowel (which can be anastomosed) are replaceable.

- Highly portable
- Rubber suction feet secure the base providing easy working conditions
- Washable, durable and all parts are replaceable

Sutures and string not provided.

W19323	Two Layered Abdominal Bowel, 2x9 cm
W19329	Two Layered Abdominal Bowel, 3x27 cm

Suture Practice Leg

Made with a soft vinyl skin over a core of stitchable foam to provide a life-like suturing experience for students or a realistic suturing demonstration by an instructor. Realistic skin texture with wrinkles and pores. Soft and pliable for easy sewing, the skin is tough enough that sutures will not pull out when tightened. Each unit provides three “wounds”. These “wounds” can be sutured repeatedly until the skin around them is finally worn out; then, new “wounds” can be cut. Although disposable, the trainer provides hundreds of suturing experiences before wearing out. Conservatively, over one hundred cuts can be made on the trainer and each of these cuts can be sutured several times. Suture Practice Leg is complete with a starter suturing kit and instruction booklet.
