

Restraint devices

Restrainers and Restraint Bags

Broome Rodent Restrainers

- Perfect for injections or blood sampling
- Entire tail is completely exposed for injections or sampling

These popular Broome Restrainers provide fast and easy animal insertion. The cylindrical design of these Restrainers solves the problem of the rodents turning once they are introduced into the Restraint.

Broome Rodent Restrainers

Order #	Animal Weight Range	Restraining Barrel ID	Length Min x Max
PY2 52-0460	15 to 30 g	25.4 mm	41 x 83 mm
PY2 52-0470	30 to 70 g	31.75 mm	50 x 100 mm
PY2 52-0478	70 to 125 g	38 mm	73 x 124 mm
PY2 52-0486	125 to 250 g	50.8 mm	70 x 178 mm
PY2 52-0494	250 to 500 g	63.5 mm	58 x 195 mm

Rodent Injection Cone

This Injection Cone is useful for large quantity sampling where speed and efficiency are required. It is transparent, durable and easy-to-clean. Suction cup feet prevent the Cone from

slipping on the work surface. The Cone opening is 10.2 cm (4 in) in diameter and is 14.6 cm (5-3/4 in) long. Restrains animals from 15 to 600 grams.

Rodent Restraint Cones

These clear polyfilm disposable Restraint Cones are an economical way to hold and restrain rodents. Place the animal into the Cone and close the large end. The animal

breathes through an opening in the small end. Animal wastes are contained in the Cone. Deliver injections directly through the plastic. Restraint Cones can be reused. Sold in packages of 100.

Rodent Restraint Bags

- Variety of sizes and shapes
- Multiple colors
- Safe, humane and disposable
- Includes twist ties to secure bags
- Multi-use

These Rodent Restraint Bags constructed of Easy-Flex-PE™ provide effortless wrapping and added animal comfort. Pre-cut sizing eliminates the need for cutting down larger bags for smaller animals, and the optional Body-Contour™ Cone shape provides easier animal capture and restraint and increased animal comfort. Optional Black and Rose color bags reduce natural light to provide an environment that aids in reducing animal agitation and stress. Restraint Bags can be used in a variety of procedures including tail tattooing and injections, IP injections, oral dosing and decapitation.
